PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on experience in Full Stack Web Development and MERN Stack technologies. Proficient in building responsive web applications, RESTful APIs, and secure authentication systems. Passionate about software development, problem-solving, and learning new technologies. Seeking an opportunity to contribute to a dynamic organization while growing as a Software Engineer.

EDUCATION

B. Tech in Computer Science Engineering (AIML)
Suresh Gyan Vihar University, Jaipur | 2026

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript, React.js, Tailwind CSS

Backend Development: Node.js, Express.js, RESTful APIs, JWT, Authentication

Database: MongoDB, MySQL

Programming Languages: JavaScript

Tools & Technologies: Git, GitHub, VS Code, Axios, Razorpay Payment Gateway

INTERNSHIP EXPERIENCE

MERN Developer Intern

CodSoft | May 2025 – June 2025

- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js
- Designed and implemented RESTful APIs for seamless frontend-backend communication
- Implemented secure authentication and authorization using JWT tokens

Web Developer Intern

Interne | May 2024 – June 2024

- Built landing pages and responsive web applications using HTML, CSS, and JavaScript
- Gained hands-on experience with Git, GitHub, and frontend best practices

PROJECTS

AI Image Generator

Live Demo: [client](#)

- Developed an AI Image Generator that allows users to generate images using text prompts with an intuitive React.js frontend
- Built backend APIs using Node.js and Express.js for image processing and request handling
- Implemented JWT-based authentication for secure user login and protected API access
- Integrated Razorpay payment gateway for credit purchases with backend payment verification
- Implemented credit-based system with user credits stored and managed in MongoDB
- Deployed at: text-to-image-one-sigma, vercel, app

Full-Fledged Banking System | Node.js, Express.js, MongoDB

Live API: backend-ledger-4by9.onrender.com

GitHub: github.com/Nikhilkumar2245

- Developed REST APIs for user authentication, account management, and transactions.
- Implemented JWT authentication, bcrypt password hashing, protected routes, and token blacklisting.
- Built a credit/debit ledger system for accurate balance management.
- Implemented secure money transfers, balance validation, transaction status, and idempotency.
- Used MongoDB transactions to maintain data consistency during transfers.
- Integrated Nodemailer with Gmail OAuth2 for transaction and registration email notifications.

ACTIVITIES & ACHIEVEMENTS

- Led a team in the '**India is Innovating**' competition and coordinated project planning, development, and presentation
- Successfully completed an **NPTEL course on Internet of Things (IoT)**.
